

Energy For All Program- Catalyzing Transformation

4th Annual Sustainable Energy for ALL Africa Workshop

African Development Bank, Abidjan, Cote d'Ivoire, March 29-30, 2017

GEF 6 (2014-2018) Programing Directions

- Promote the timely development, demonstration, and financing of low-carbon technologies and mitigation options
- Develop and demonstrate innovative policy packages and market initiatives to foster a new range of mitigation actions
- Promote integrated low-emission urban systems
- Promote conservation and enhancement of carbon stocks in forest, and other land use, and support climate smart agriculture
- Integrate findings of convention obligations and enabling activities into national planning processes and mitigation contributions

GEF-6 CCM Allocation: \$1,260 Million

GEF 6 Resource Remainders for Six LDCs as of 3/24/2017 (\$ Million)

Country	Flexible	BD Allocation	CC Allocation	LD Allocation	Total Allocation	BD Available	CC Available	LD Available	Total Available	Max to Energy Projects
Benin	No	2.00	3.00	5.08	10.08	1.00	0.31	4.55	5.86	2.00
Equatorial Guinea	Yes	2.00	3.00	1.00	6.00	2.00	3.00	1.00	6.00	6.00
Lesotho	Yes	2.00	3.00	1.00	6.00	-1.19	2.78	1.00	2.59	2.59
Sao Tome and Principe	No	3.78	3.00	3.55	10.33	3.78	-0.22	3.05	6.61	1.78
Sierra Leone	Yes	2.11	3.00	1.00	6.11	2.11	3.00	1.00	6.11	6.11
Togo	No	2.00	3.00	2.21	7.21	2.00	0.00	2.21	4.21	2.00
Grand Total		13.89	18.00	13.85	45.74	9.70	8.87	12.82	31.39	20.48

Grid modernization

- Intended GEF7 Energy Programing Direction 1

- To enable rapid integration of RE and demand side management
- To facilitate use of policy instrument and capacity building interventions
- To regulate and phase out inefficient and unsafe power grids
- To provide affordable, reliable, and renewable power to all

Energy management systems and emissions control for industries

-Intended GEF7 Energy Programing Direction 2

- To reduce energy intensities for industries for emerging economies
- To use renewable energy to replace fossil energy in industries
- To mitigate emissions of unintentionally-produced POPs and mercury, listed under the Stockholm Convention and the Minamata

Strengthening Energy Efficiency Accelerators -Intended GEF7 Energy Programing Direction 3

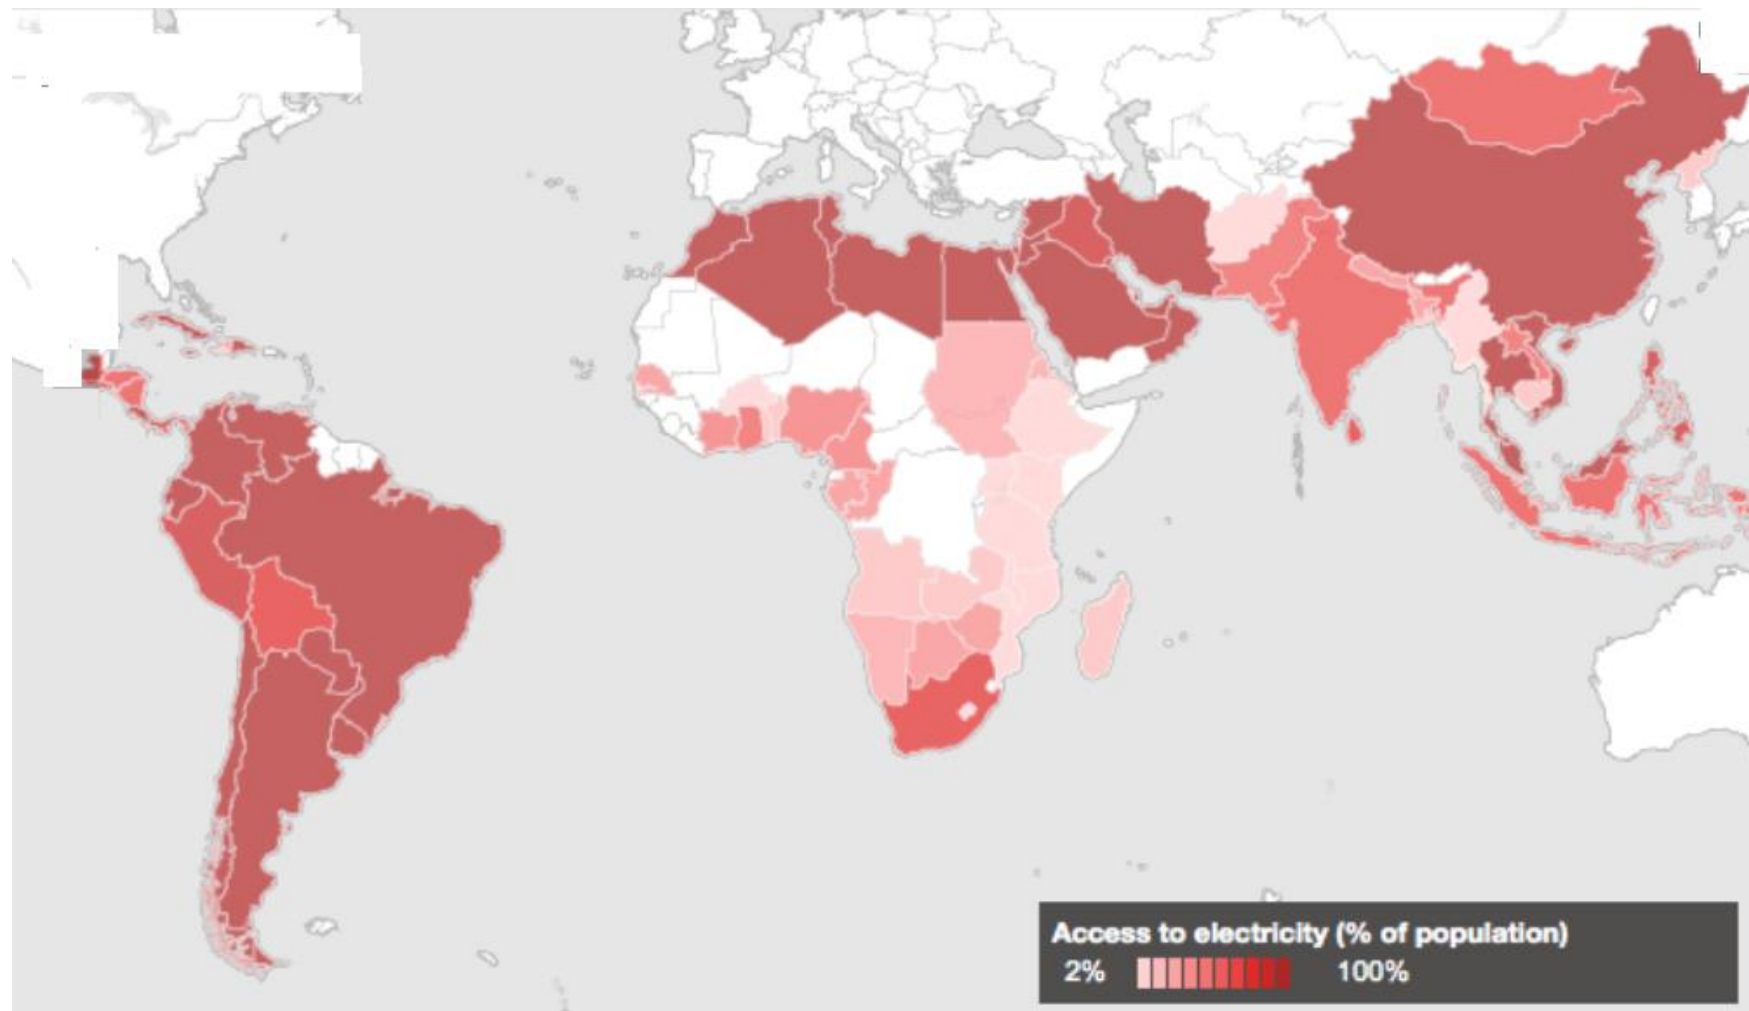

- To attract more private investment and enable greater country participation
- To raise energy efficiency in buildings, district heating and cooling, equipment and appliances, fuel efficient vehicles, etc.
- To foster harmonization of testing standards and performance metrics
- To promote new climate financing models and energy service companies

Sustainable Energy for SIDS and LDCs

- Intended GEF7 Energy Programing Direction 4

- To reduce fossil energy importing and dependence
- To attract private investments in RE and EE
- To ensure access to affordable, reliable, sustainable, and modern energy

*Fostering adoption of economy wide policies and alignment with NDCs
-Intended GEF7 Energy Programing Direction 5*

- To end subsidies for fossil energy production and consumption
- To support low carbon policy/strategy/regulation/standards development
- To incentivize low-carbon technologies, innovation, entrepreneurship, and investment
- To engage multi-stakeholders, including the government, the private sector, and CSOs

Thank you!
